### **About This Content**

A new darkness seeps into New Vigil from the Void, intent on restoring despair and desolation to a world that has forgotten it. The four factions recall their veteran heroes and reawaken the great war machines of the past, as they plan their first in the chaotic ebb and flow of light and dark. The War of Shadows has begun!

New dual-cost Heroes and Constructs require players to use both resources to acquire them, but have incredible power!

As the balance between Light and Dark shifts, cards gain additional powers depending on whether it's Night or Day!
